

Helen C. Peirce School of International Studies  
Presents:

# Apollo After School

EXTENDED DAY PROGRAM

Orientation Week:  
August 21st - 25th

Homework

Enrichment

Fitness

Snacks

**Mon** **Science Club** Starts August 28th

Parachutes, spaceships, lasers, hadron colliders - we all know that science is a subject that's just for the cool kids (like you, of course!). The good news is that science is easy and incredibly fun to start practicing! Students in Apollo Science will learn how to ask the questions that are the beginning of all scientific discoveries, how to make hypotheses, and of course the fun part - testing them to see how they work. Through a hands-on and exciting curriculum, this club will help your child become more curious and have a deeper understanding about how the world works.

**Tue** **Arts & Crafts** Starts August 29th

In Arts & Crafts Club, young Apollo students will learn many techniques to turn their ideas into reality under the guidance of our Apollo staff. Club members will use their creativity and imagination to make many objects for gifts and decorations.

**Wed** **Young Explorers** Starts August 30th

Students will learn about mysterious rainforests, towering mountains, sweltering volcanoes, exotic cultures, and many other wonders this amazing planet has to offer along with fun travel tips and the great explorers whose daring gave us the maps and charts we take for granted today.

**Thu** **Math Club** Starts August 31st

Math is fun - we're not just saying that, let us show you! Our math enrichment club uses a variety of games and hands-on activities to help improve our students' understanding of this critically important subject. Our curriculum emphasizes how math relates to creativity and everyday life, whether it is the geometry of creating their personal starship or in saving money for a trip to the theme park.

**Fri** **Apollo Olympians** Starts September 1st

Zumba! Yoga! Dancing! Sports! These easy fitness activities for kids make exercise so much fun that your children won't notice they're working out. When you motivate children to exercise, they will be happier, healthier, and more focused!
